Frontend Layer
FRONTEND
Web Dashboard
React-based dashboard for incident monitoring and manual approval.
React
Tailwind CSS
Socket.io-client
Gateway Layer
API GATEWAY
Fractal API Gateway
Fractal Kernel entry point for routing and authentication.
Node.js
Express
Fractal V2 Kernel
Agent Core Layer
SERVICE
Log Ingest Service
High-speed log ingestion and parsing using Fractal V2 modular
Node.js
TypeScript
Fractal V2 Cells
SERVICE
Incident Commander Ag...
Core agentic workflow engine using Mastra for state management and
Python
Mastra
LangGraph
FastAPI
SERVICE
Terminal Executor Service
Secure execution environment for running validated remediation
Python
Bash
Docker SDK
Memory & Storage Layer
SERVICE
Memory Vault Service
Hybrid memory system combining Qdrant vector search and local QSAG
Zig
WASM
Node.js
Qdrant SDK
Vector Search
DATABASE
qdrant-vector-store
Stores core data
qdrant-vector-store
POPCNT Match
CACHE
qsag-binary-cache
Stores cached data
qsag-binary-cache
Security & Guardrails Layer
SERVICE
Safety Guard Service
Security layer for scanning CLI commands and preventing prompt
Python
Enkrypt AI SDK
FastAPI
CLIENT
Enkrypt AI API
Enkrypt AI cloud API for command safety and injection detection.
Enkrypt AI API
External Integrations Layer
CLIENT
Slack API
Slack API for interactive approval buttons and notifications.
Slack API
Webhooks
